Vote

Change to Tournament Rule 2.4 iii)

Information

During the last vote at the delegates conference, some countries voted to keep the three counted tournaments in the WTHT overall standings, then they did not have the option to choose whether the new number should be 4 or 5 counted tournaments. Thus, 7 countries were unable to vote on this issue.

Therefore, we want to clarify this point of the rules before the start of the new season.

1 Question

The second paragraph of Tournament Rule 2.4 iii):

Options

1) to leave in the existing edition:

*"2.4 iii) The best **five** results for each player from all ITHF WTHT tournaments are counted."*

2) to be reworded as follows:

*"2.4 iii) The best **four** results for each player from all ITHF WTHT tournaments are counted."*

2

Vote

Change to Tournament Rule 2.5 i)

Information

Recently, there has been a trend of changing the citizenship of some players before major tournaments (world and European Championships). In this regard, we offer paragraph 2.5 i) of the Tournament Rules set out in the new edition.

2 Question

The paragraph 2.5 i) of the Tournament Rules set out in the new edition:

"2.5. i) Each international championship shall be held at most every two years. The organizers of the World and European Championships are the host country and the ITHF. Only National federations can register players for these tournaments.

All other players, who do not have own national federations must be approved for participation by the Executive Committee of ITHF.

Players may only represent countries for which they possess a valid travel (international) passport.

If a player changes his country of residence, he can only represent a new country at the WCh and ECh if he changed the country before December 31 of last year".
